- Framer Motion
- Github
- Newman
- Express.js
- Mongodb

ABOUT ME

I'm a passionate Software Developer with over six years of experience in building dynamic web applications. I have participated in the development of applications for various industries, leading significant projects. I am proficient in React.js, Next.js, Node.js, Express.js, and MongoDB. My hobbies include playing video games, playing Magic: The Gathering (MTG), and volunteering as a JavaScript instructor at Bright Coders Academy.

EDUCATION

React Native Developer course	Bright Coders Academy	2021
Javascript MERN Developer course	Dev Education	2019 - 2020
Bachelor Degree on Telematics Engineering	Universidad de Colima	2015 - 2019

EXPERIENCE

Senior Software Developer   Travelport   Jun 2023 - Present

I perform maintenance on React components and have led a project to develop automated contract testing for approximately 150 APIs using Newman and GitHub for CI/CD, utilizing Azure to run and maintain environment pipelines. Part of my work involves providing guidance to junior developers in accomplishing frontend, backend, and SDET tasks.

Mentor   Bright Coders Academy   May 2021 - Jun 2024

Guiding junior developers through the React Native course, addressing JavaScript questions, and providing overall course support and problem-solving advice.

Software Developer   Sancrisoft   Jun 2021 - Jun 2023

I worked on diverse client projects using React.js, Next.js, Express.js, React Native, AWS , and MongoDB. I developed five different applications, including data capture for Oculus, cruise administration systems for Xennial Digital, Celebrity Cruises, complex web pages for PMG Advertising Agency, and COOP truck rental management systems. I led the animation development on one of these projects.

Software Developer   Coca-Cola   Jun 2019 - Jun 2021

Developed and upgraded internal applications managing confidential data via REST APIs. Engaged in agile development, improved legacy software, and created reusable components using Next.js, React.js, SASS, and Redux.

Software Developer   Tata Consultancy Services   Dec 2018 - Jul 2019

Built React.js components for banking services and integrated a hotel employee registration module.
